Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Claim 10 is objected to because of the following informalities: line 4 recites the phrase "a tongue extending outwardly to matingly engaging the receiver." The phrase should be "a tongue extending outwardly to matingly engage the receiver" or "a tongue extending outwardly matingly engaging the receiver." Appropriate correction is required.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-14 are rejected under 35 U.S.C. 102(b) as being anticipated by Bush et al. (US 6,199,948).

Regarding claims 1-3, Bush et al., especially Figure 14, discloses a storage system 120 for use on a car seat back 14 with a forward slanting section (between seat back 14 and seat bottom 12), an upper section (Fig. 1 on seat back 22 and 24), and a rear 22. Mounted to the seat back, by means of mechanisms 34 and 40, is a storage cabinet 120 with a top and base, sidewalls located there between, and outer and inner walls, the inner wall being located opposite the outer wall and adjacent the forward slanting section. See Figure 14. Furthermore, Bush et al. discloses an interior compartment 124 defined by the intersection of the previous mentioned walls.

Art Unit: 3727

Regarding claim 4 and 6, Bush et al. discloses a seat frame 20, set in seat back 14, with mounting mechanisms 34 and 40 that attach to storage cabinet 120 by tabs 82 that extend outwardly from the cabinet.

Regarding claims 5, and 11 Bush et al. discloses a cabinet interior 124 with addition compartment inside for securing other objects (column 6, lines 3-6). It is also noted in other embodiment of Bush et al., that the container system is shown with compartments 94 and 96, divided by separator 98 (Figure 10).

Regarding claims 7 and 13, Bush et al. discloses exterior compartments 126 and 128 attached to the outer wall.

Regarding claims 8 and 14, Bush et al. discloses a storage unit on seat 10 with seat bottom 12, attached by pivot 18. See Figure 1.

Regarding claim 9, 10, and 12 Bush et al. discloses the invention as claimed including a mounting mechanism (items 34, 40, 82, and 84) on storage unit 120, which is releasably secured to the seat frame by handle 38. The mounting mechanism of Bush is comprised of tabs and tongues 82 which extend outwardly from the storage unit into receivers 34 which are attached to seat frame 20.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Lucas, Jr et al. (US 5,913,533) discloses a seat assembly, removably attachable to a car seat.
